INTRODUCTION

“This guide has significantly expanded our ability to assist businesses seeking to locate or grow in Quincy. And, reflecting the ‘business friendly’ spirit of Quincy, our municipal officials and staff provided exceptional cooperation in the creation of the guide. Bravo and thank you to all who contributed.”

— Dick Mason, Economic Development Specialist, Quincy 2000 Corporation

Navigating through Regulations and Licensing Requirements: A Guide for Quincy Entrepreneurs in 20 Business Types is designed to provide a quick grasp of the requirements for starting a business in the city of Quincy. Pioneer Institute has researched city, state and federal regulations and produced the findings in this how-to, step-by-step guide.

This publication will be a useful resource to a variety of groups:

- Individuals who would like to start a sole proprietorship in Quincy
- Agencies, both public and private, that advise and assist entrepreneurs
- Government officials interested in streamlining the business start-up process
- Financial institutions that provide technical services to entrepreneurs
- Research organizations involved in business development

The guide provides a roadmap for starting 20 different businesses in Quincy. For each profession, the Checklist walks the user through a brief overview of the steps involved in the process. The Detailed Steps take the reader through a comprehensive listing of permits, licenses, and forms necessary for meeting local, state, and federal requirements. The information is organized into various sections: business plan, licensing, location, zoning and permitting, business certificate, and taxes. Users will find that the sections are similarly numbered in both the Checklist and Detailed Steps to produce an easy-to-follow guide.

We recommend that the user also refer to the two appendices, which contain additional valuable information for the entrepreneur.

- Appendix 1 summarizes in tabular form the city, state, and federal agencies in which a entrepreneur must interact to start a business in Quincy.
- Appendix 2 lists organizations that offer business assistance, accounting, financial, technical and other services to entrepreneurs.

The Center for Urban Entrepreneurship team at Pioneer Institute has dedicated much time and effort to produce an entrepreneur-friendly tool. Your feedback is welcomed and appreciated.

Disclaimer

The information contained in this guide is limited to the procedures and requirements for entrepreneurs who are starting sole proprietorships without any employees. This guide cannot reflect changes in federal, state, or municipal laws, rules, regulations, or filing fees that occur following its publication.

Cities and towns outside Quincy may have similar regulations. However, this guide only addresses those regulations in effect in Quincy and should not be used as a guide to starting small businesses anywhere else.

DETAILED STEPS

BUSINESS PLAN

1. Draft a business plan. Decide how many children you wish to care for, and to what age groups these children will belong. If the number exceeds six, the state requires that you employ an assistant who is licensed by the Massachusetts Office of Child Care Services (OCCS) (see step 2). This guide contains instructions for sole proprietors only. Hiring other individuals requires that you take further steps and complicates your tax filing. For more information, visit the Massachusetts Department of Business and Technology website.

LICENSING

2. Before you begin providing child care services, you must be licensed by the Massachusetts Office of Child Care Services (OCCS) as a child care provider.

   Massachusetts Office of Child Care Services
   Central Office
   600 Washington Street, Suite 6100
   Boston, MA 02111
   617-988-6600

   http://www.qualitychildcare.org

   The Boston Regional Office covers the City of Quincy. Call to learn about becoming a licensed child care provider.

   Massachusetts Office of Child Care Services
   Boston Regional Office-Region 6
   1250 Hancock Street, Suite 120-S
   Quincy, MA 02169
   617-472-2881

   2a. Complete the OCCS Orientation Program. This can be done at any Child Care Resource Agency location. Call 617-988-6600 or check the website for locations.

   http://www.qualitychildcare.org/contact.shtml

   2b. Call to request a copy of the Massachusetts Child Care Provider’s License application from OCCS. You can download the forms at the OCCS Online Forms Library:

   http://www.qualitychildcare.org/licensing_forms.shtml
You should call the OCCS Boston Regional Office before filling out any forms. There are different types of family child care licenses for home providers. The type of license you need depends on the number of children you intend to care for:

- For caring for up to 6 children in your home, you need a Regular Family Child Care License.
- For caring for up to 6 children under 7 years of age and 2 children over 7 years of age in your home, you need a Family Child Care Plus License.
- For caring for up to 10 children in your home, you need a Large Family Child Care and an OCCS approved assistant.

Before you submit the application to open your facility, complete the following steps:

2c. Medical Requirements
   - Obtain current certification in basic first aid and CPR for infants and children
   - Be immunized against measles, mumps, and rubella
   - Have a recent, negative test on record for tuberculosis (TB) on a Mantoux TB test
   - Receive a complete physical
   - Have your physician fill out the medical form in the application packet

2d. Information Requirements
   - Submit a list of persons living in your household, detailing any physical, mental, or emotional problems that they may have that could affect your provision of day care. Every individual who regularly visits or is living in the house who is 17 years of age or older must fill out a background check form. They must submit a Criminal Offender Record Information (CORI) form to the state and undergo a background check. Certain criminal offenses may disqualify a home for a Family Child Care license. For further information on this, ask a representative from the Office for Childcare Services at 617-988-6600.
   - Compile a list of references
   - Compile a list of child care jobs that you have held in the past
   - Find two persons who live within ten minutes of your day care location who could help you in case of an emergency
   - Submit to your inspector a written activities plan in compliance with the requirements of the state law listed under Section 102 CMR 8.12

2e. Submit the application along with a signed check or money order in the amount of the licensing fee to OCCS as specified in the application packet.

Note: You will be required to maintain health and attendance records for each child that you or an assistant supervises. For more information on licensing and operating regulations, visit the OCCS website.

http://www.qualitychildcare.org/regulations.shtml

OCCS has several resource and referral agencies throughout Massachusetts, including an office in Quincy. The OCCS Child Care Resource and Referral Agencies (CCR&R) are set up to serve parents, child care providers, employers and community groups. They offer information, referral, education, training, technical assistance, and resource development.

LOCATION

3 Draft a detailed floor plan, ensuring that your property conforms to OCCS guidelines. If you plan to make repairs or do renovations, the floor plan should show what the property will look like when the work has been completed. The floor plan need not be prepared professionally, but must show all planned furniture, doors, windows, equipment, plumbing, and electrical outlets/equipment.

3a. The following questions will need to be answered when filling out your application for a child care provider’s license and should be considered as you prepare your floor plan.

- Do you own a swimming pool (not a wading pool)? How is this pool made inaccessible to and safe for children?
- Do you have a porch that is more than three feet high?
- Do you have smoke detectors on each floor of the establishment?
- What type of heating equipment do you have? (The state will only permit baseboard and grate heating to remain unbarricaded in a day care facility.)
- Do you keep firearms or ammunition in your home? How are such firearms and ammunition stored and kept inaccessible to children?
- Do you have locks on all bathroom and closet doors? Are all of these locks easily opened?
- Do you have well water? (The state will require that you submit your well water to purity and quality tests.)
- Are all potentially hazardous materials (i.e., cleaning supplies, razors, etc.) stored and inaccessible to children? (The state will inspect the facility room by room to ensure this. Bathrooms and kitchens are emphasized.)
- Is there a working flashlight on each floor of the home? (Required)
- Is there peeling paint on the premises? Peeling paint must be addressed before one may operate a child care center. If there is lead paint, then it should be professionally removed before one starts caring for children on the premises. Any property constructed prior to 1978 must be checked for lead paint. The Office of Child Care Services Inspector will not approve your home or office to open for child care until any and all lead paint is professionally removed.
- Do you have an evacuation plan in case of fire, gas leak, or other emergency? (Required to be on paper)
- Are individual towels or paper towels and liquid soap available for each child? (Required)
- Are all windows above the first floor securely screened and/or barricaded? (Required)
- Are all unused electrical outlets covered? (Required)
- Do you have child care gates? (Required if you are caring for children under the age of three)
- Are you using your own yard for an outdoor play area? If so, what are the measurements? (Must have 75 square feet per child)
- Is the yard fenced and, if so, how high is the fence? Is it on a busy street?
- How many exits are in your home, and where are they located?
- Do you have to pass through someone else’s living space to get out?

3b. Your child care facility must have an operable telephone. Next to the telephone must be posted a list of emergency telephone numbers, including numbers for Fire, Police, Ambulance, Poison Control Center, nearest emergency health care facility, the names and numbers of two emergency contacts, and your name, address, and phone number.

3c. Before you are permitted to open for business, the OCCS will inspect your facility to determine if it meets state standards. The inspector will indicate any changes that need to be made to the property, or certifications you must obtain before you may open for business. Ask for copies of any paperwork generated by such inspections. If you receive certification, your license will be valid for up to three years.
ZONING AND PERMITTING

There are no zoning requirements for at-home child care providers in Quincy. However, you should call or visit the City of Quincy Inspectional Services Department to ensure your business is in compliance with city regulations.

http://www.dor.state.ma.us/forms/formlist.htm

7b. When you have completed the forms, either mail the printed forms or file online as indicated. If you file Form TA-1, you will receive a Massachusetts Sales Tax Registration Number.

7c. You should call the Department of Revenue’s Customer Service Bureau at 617-887-6367 or toll-free in Massachusetts at 1-800-392-6089 to ensure you are in full compliance with the law.

If you intend to operate a business in the City of Quincy, you must file all necessary tax forms with the Internal Revenue Service (IRS). Once you file the necessary forms, the IRS will give you a federal tax identification number. As a sole proprietor, your tax identification can be your social security number. The IRS will provide further instructions on compliance with federal regulations.

DETAILED STEPS

BUSINESS PLAN

1 Draft a business plan. This guide provides detailed instructions for those wishing to open a mechanical auto repair or auto body shop. The instructions are identical, except auto body or glass work requires further licensing from the Massachusetts Division of Standards (see Step 9). This guide also contains instructions for sole proprietors only. Hiring other individuals requires that you take further steps and complicates your tax filing. For more information, visit the Massachusetts Department of Business and Technology website.

http://www.mass.gov/portal/index.jsp?pageID=agcc&agid=ded&agca=businessassistance&agcc=businessplan&s=0&=

LICENSING

2 Obtain all necessary licenses and permits

2a. In order to operate an auto repair shop in Quincy, you must be licensed by the City of Quincy License Commission.

License Commission
City Hall
1305 Hancock Street
Quincy, MA 02169
617-376-1134

Visit the City of Quincy License Commission to file a license application or download the application online:

The application requires approval from the City of Quincy Inspectional Services Department (ISD).

Inspectional Services Department
1585 Hancock Street, Suite 301
Quincy, MA 02169
617-376-1450

After receiving sign-off from the City of Quincy ISD and completing the forms, return the original application and four copies to the License Commission. Your application will be reviewed, and you will be notified of the outcome.

2b. You must also file for necessary permitting from the City of Quincy Fire Department.

Fire Department
40 Quincy Avenue
Quincy, MA 02169
617-376-1015
You will need to apply for a Waste Oil Permit from the Fire Department to store any waste oil at your place of business. The application is filed at the Fire Prevention Office at the Fire Department.

Call or visit the City of Quincy Fire Department to obtain all other appropriate permits to ensure you are in full compliance with fire prevention regulations.

2c. Operating an auto repair shop requires that you deal properly with hazardous wastes such as waste oil, waste gasoline, and waste generated from degreasing auto parts. You must file the appropriate forms with the Massachusetts Department of Environmental Protection (DEP).

Massachusetts Department of Environmental Protection
One Winter Street
Boston, MA 02108
617-292-5500
InfoLine: 1-800-462-0444

http://www.state.ma.us/dep

As a generator of hazardous waste, you need to register with the DEP. You should complete the Generator Registration form if you are a Very Small Quantity Generator of waste oil (less than 27 gallons or 220 pounds per month) or a Small Quantity Generator of waste oil (27 to 270 gallons or 220 to 2200 pounds per month). Call the DEP at 617-292-5500 to receive the form by mail or download the form from the DEP website.

http://www.state.ma.us/dep/bwp/dhm/files/genreg.doc

Return the completed form to the DEP at the address above.

If you will generate more than 27 gallons of hazardous waste and/or 270 gallons of waste oil per month, you will need to file a Notification of Hazardous Waste Activity Form. You will receive a federal identification number from the United States Environmental Protection Agency. This form is filed through the Massachusetts DEP. Call the DEP at 617-292-5500 to request an application or download the application at the DEP website.

http://www.state.ma.us/dep/bwp/dhm/files/hwepaid.pdf

Return the completed form to Massachusetts DEP Hazardous Waste Program. If you need assistance in completing these forms, call the Hazardous Waste Compliance Assistance line at 617-292-5898.
Detailed Steps

Environmental regulations are very extensive. Visit the following website detailing hazardous waste regulations to learn more about the necessary steps for complying with the DEP.

http://www.state.ma.us/dep/bwp/dhm/dhmpubs.htm#regs

You should call the DEP at 617-292-5500 or 1-800-462-0444 to ensure you are in full compliance with the law.

2d. Additional licenses are required through the Massachusetts Division of Standards if you plan to sell antifreeze, motor fuel and/or lubricating oil.

Massachusetts Division of Standards
One Ashburton Place, Room 1115
Boston, MA 02108
617-727-3480

http://www.state.ma.us/standards/index.htm

Applications for these permits can be downloaded at the Division of Standards website.

http://www.state.ma.us/standards/license.htm

You may also call the Division of Standards at 617-727-3480. You will be instructed to leave a message with your name, address and the application you are requesting to be mailed.

Location

Choose a location for your business and draft a detailed floor plan. If you plan to make repairs or do renovations, the floor plan should show what the property will look like when the work has been completed. The floor plan need not be prepared professionally, but must show all planned furniture, doors, windows, equipment, plumbing, and electrical outlets/equipment. Your name, home address, shop location address, and day and night telephone numbers must all be included with your floor plan.

Note: You should NOT purchase a property for business use or sign a lease until you have verified the following:

- Your business will be located in an appropriate zone. Request a zoning review from the Building Department of the City of Quincy Inspectional Services. If you need a zoning variance or licensing from the city licensing commission, verify that you will not be facing any community opposition. Try to set up a community meeting through the ward councilor.
- Your plans are in compliance with Historic Commission requirements, if applicable. The Historic Commission exercises control over facades and signs in historic districts.
4 Visit the Building Department of the City of Quincy Inspectional Services to begin the process of obtaining a Building Permit and Occupancy Permit.

![Building Department](https://i.imgur.com/G7Za.png)

4a. Prepare a property-use proposal stating the property’s existing use and contain a brief description of the business you wish to open, anticipated hours of operation, number of employees, services provided and location. Submit the proposal to a building inspector who will run a zoning check to determine whether your location is properly zoned for your business. (Office hours: 7:00 am-10:00 am.)

4b. File a Building Permit Application with the Building Department of the City of Quincy Inspectional Services. If you plan to make renovations to the property, a licensed contractor must supervise any renovations being made. The permit application requires the contact information and license number of the licensed contractor.

Note: If you are not making any renovations to the property, you must still file a Building Permit Application. The application will be used to declare a change of occupancy at the property. If you are not making renovations, submit the Building Permit Application and skip to Step 4c.

Submit your floor plan (as prepared in Step 3) and the completed Building Permit Application to the Building Department. A building inspector will review your Building Permit Application. If approved, your application will be returned with further instructions from the inspector. You may be required to receive approval for the renovations from any or all of the following city departments:
- Fire Department
- Wire Department
- Plumbing Department
- Department of Public Works - Engineering Division and/or Water & Sewer Division
- Traffic Engineer
- Health Department

Note: If the building in which you operate your business or the building that houses your business’s tenant space exceeds 35,000 cubic feet, you will be required to hire a licensed design professional to supervise the work being done. Before a Building Permit will be issued, the licensed design professional will need to file a Controlled Construction Affidavit with the Building Department of the City of Quincy Inspectional Services stating that he/she will supervise the renovations.
DETAILED STEPS

4c. After renovations have been completed at the property, you will need to file an Occupancy Permit application with the Building Department. You may be required to receive approval of the work that has been performed from any or all of the following city departments:
   • Fire Department
   • Wire Department
   • Plumbing Department
   • Department of Public Works - Engineering Division and/or Water & Sewer Division
   • Traffic Engineer
   • Health Department

4d. After final approval from a building inspector and the Inspectional Services Director is given, the Occupancy Permit will be issued for the property.

Note: If the building in which you operate your business or the building that houses your business’ tenant space exceeds 35,000 cubic feet, you will need to present a Final Affidavit from both the licensed design professional who supervised the work and the licensed contractor who performed the renovations in order to receive the Occupancy Permit. The Final Affidavit forms are filed through the Building Department.

BUSINESS CERTIFICATE

5  You must file with the Quincy City Clerk for a Business Certificate (d/b/a).

5a. After filling out the application, have it notarized at the City Clerk’s office. Submit the completed form with a check or money order for the filing fee of $25 to the Quincy City Clerk.

TAXES

6  Visit the City of Quincy Assessor’s Office to file a Form of List. A Form of List is used to document the property owned by your business, so that it may be assessed and taxed by the city.

LICENSING

2 Every barber shop must be under the supervision of a licensed master barber during hours of operation. Apprentices may not work on customers without a licensed master barber present and in charge.

2a. To become a master barber, you must already be a licensed apprentice. Apprentice licenses are acquired through the barber school you are attending. Once you are a licensed apprentice, you can call the Board of Registration of Barbers, Massachusetts Division of Professional Licensure at 617-727-7367 to speak to someone about an application. You will likely be asked to visit the Board of Barbers office to present your apprentice license and obtain an application to become a master barber.

2b. You will then be advised to call Promissor at 1-800-274-2021 to set up an appointment to take a computer-based test. For further information, contact the Board of Registration of Barbers or visit the website.

http://www.state.ma.us/reg/boards/br/default.htm

LOCATION

3 Draft a detailed floor plan for submission to the Board of Registration of Barbers. If you plan to make repairs or do renovations, the floor plan should show what the property will look like when the work has been completed. The floor plan need not be prepared professionally, but must show all planned furniture, doors, windows, equipment, plumbing, and electrical outlets/equipment.

- The floor plan must show where the sink or sinks is/are in the work area, where the bathroom is and display that it has a sink where the toilet is located.
- You must also show where the barber pole or barber pole decal is located. It must be in a window, on a door, or in a location clearly visible to the public.
DETAILED STEPS

• Your name, home address, shop location address, and day and night telephone numbers must also all be included on the face of the floor plan.
• The license number and name of the master barber who is in charge must also be on the face of the floor plan.

Note: You should NOT purchase a property for business use or sign a lease until you have verified the following:
• Your business will be located in an appropriate zone. Request a zoning review from the Building Department of the City of Quincy Inspectonal Services. If you need a zoning variance or licensing from the city licensing commission, verify that you will not be facing any community opposition. Try to set up a community meeting through the ward councilor.
• Your plans are in compliance with Historic Commission requirements, if applicable. The Historic Commission exercises control over facades and signs in historic districts.

ZONING AND PERMITTING

4

Visit the Building Department of the City of Quincy Inspectonal Services to begin the process of obtaining a Building Permit and Occupancy Permit.

4a. Prepare a property-use proposal stating the property’s existing use and contain a brief description of the business you wish to open, anticipated hours of operation, number of employees, services provided and location. Submit the proposal to a building inspector who will run a zoning check to determine whether your location is properly zoned for your business. (Office hours: 7:00 am-10:00 am.)

4b. File a Building Permit Application with the Building Department of the City of Quincy Inspectonal Services. If you plan to make renovations to the property, a licensed contractor must supervise any renovations being made. The permit application requires the contact information and license number of the licensed contractor.

Note: If you are not making any renovations to the property, you must still file a Building Permit Application. The application will be used to declare a change of occupancy at the property. If you are not making renovations, submit the Building Permit Application and skip to Step 4c.

Submit your floor plan (as prepared in Step 3) and the completed Building Permit Application to the Building Department. A building inspector will review your Building Permit Application. If approved, your application will be returned with further instructions from
the inspector. You may be required to receive approval for the renovations from any or all of the following city departments:
• Fire Department
• Wire Department
• Plumbing Department
• Department of Public Works - Engineering Division and/or Water & Sewer Division
• Traffic Engineer
• Health Department

Note: If the building in which you operate your business or the building that houses your business’s tenant space exceeds 35,000 cubic feet, you will be required to hire a licensed design professional to supervise the work being done. Before a Building Permit will be issued, the licensed design professional will need to file a Controlled Construction Affidavit with the Building Department of the City of Quincy Inspectional Services stating that he/she will supervise the renovations.

4c. After renovations have been completed at the property, you will need to file an Occupancy Permit application with the Building Department. You may be required to receive approval of the work that has been performed from any or all of the following city departments:
• Fire Department
• Wire Department
• Plumbing Department
• Department of Public Works - Engineering Division and/or Water & Sewer Division
• Traffic Engineer
• Health Department

4d. After final approval from a building inspector and the Inspectional Services Director is given, the Occupancy Permit will be issued for the property.

Note: If the building in which you operate your business or the building that houses your business’ tenant space exceeds 35,000 cubic feet, you will need to present a Final Affidavit from both the licensed design professional who supervised the work and the licensed contractor who performed the renovations in order to receive the Occupancy Permit. The Final Affidavit forms are filed through the Building Department.

BUSINESS CERTIFICATE

5 You must file with the Quincy City Clerk for a Business Certificate (d/b/a).

**CERTIFICATE OF REGISTRATION**

To apply for a Certificate of Registration from the Board of Registration of Barbers, Massachusetts Division of Professional Licensure for your shop, submit your floor plan to the Board of Registration of Barbers.

9a. After the floor plan has been reviewed, you will be contacted by the barber investigator. If the floor plan is approved, the investigator will make an appointment to inspect the facility:
   • If any renovations have been made, you will need to have the plumbing and electrical forms signed by a Quincy inspector.
   • You will also be asked to provide your business certificate from the Quincy City Clerk.
   • The investigator will request the fee.

The inspector will look for several critical things in your shop:
   • The shop must have hot and cold running water.
   • If hot and cold water are available from a public supply, then that must be your source. Where no public water supply is available, water must be supplied from a “suitably located pressure or gravity tank.”
   • You must have a sink or sinks that is/are capable of disposing of all wastewater.
   • You must have an accessible bathroom, with toilet and adequate sink for hand washing.

9b. If the inspector finds the facility up to code, then he/she will allow the shop to open and the registration board shall issue a Certificate of Registration for your barber shop. All Certificates of Registration for barber shops shall be renewed biennially. Be sure that you have filed all the necessary forms before opening your business.

If you need a zoning variance or licensing from the city licensing commission, verify that you will not be facing any community opposition. Try to set up a community meeting through the ward councilor.
   • Your plans are in compliance with Historic Commission requirements, if applicable. The Historic Commission exercises control over facades and signs in historic districts.
3a. If this property is attached to your home, the shop and home must comply with the regulations of the Board of Registration of Cosmetologists, Massachusetts Division of Professional Licensure.
   - In order to operate a salon from your home, you must have a room or rooms separated from the living quarters in the house, and there must be an available bathroom facility for employees and customers that is separate from the facility used by residents of the home.
   - The door leading into the salon must be visible from the street and must not require customers to pass through the living quarters of the residence of the home.
   - Home operation also requires licensure from the Division of Professional Licensure (see Step 9).

3b. Submit the floor plan to the Board of Registration of Cosmetologists for review and approval. Include the following information:
   - The owner’s name and two telephone numbers where he/she may be reached
   - A copy of the manager’s current cosmetology license
   - A note indicating whether the owner has purchased an existing licensed salon or is making/has made physical changes to the property in order to create a salon

LOCATION

3 Choose a location for your business and draft a detailed floor plan. If you plan to make repairs or do renovations, the floor plan should show what the property will look like when the work has been completed. The floor plan need not be prepared professionally, but must show all planned furniture, doors, windows, equipment, plumbing and electrical outlets/equipment. Your name, home address, shop location address, and day and night telephone numbers must all be included with your floor plan.

Note: You should NOT purchase a property for business use or sign a lease until you have verified the following:

• Your business will be located in an appropriate zone. Request a zoning review from the Building Department of the City of Quincy Inspectional Services. If you need a zoning variance or licensing from the city licensing commission, verify that you will not be facing any community opposition. Try to set up a community meeting through the ward councilor.
• Your plans are in compliance with Historic Commission requirements, if applicable. The Historic Commission exercises control over facades and signs in historic districts.
ZONING AND PERMITTING

4. Visit the Building Department of the City of Quincy Inspectional Services to begin the process of obtaining a Building Permit and Occupancy Permit.

4a. Prepare a property-use proposal stating the property’s existing use and contain a brief description of the business you wish to open, anticipated hours of operation, number of employees, services provided and location. Submit the proposal to a building inspector who will run a zoning check to determine whether your location is properly zoned for your business. (Office hours: 7:00 am-10:00 am.)

4b. File a Building Permit Application with the Building Department of the City of Quincy Inspectional Services. If you plan to make renovations to the property, a licensed contractor must supervise any renovations being made. The permit application requires the contact information and license number of the licensed contractor.

Note: If you are not making any renovations to the property, you must still file a Building Permit Application. The application will be used to declare a change of occupancy at the property. If you are not making renovations, submit the Building Permit Application and skip to Step 4c.

Submit your floor plan (as prepared in Step 3) and the completed Building Permit Application to the Building Department. A building inspector will review your Building Permit Application. If approved, your application will be returned with further instructions from the inspector. You may be required to receive approval for the renovations from any or all of the following city departments:

- Fire Department
- Wire Department
- Plumbing Department
- Department of Public Works - Engineering Division and/or Water & Sewer Division
- Traffic Engineer
- Health Department

Note: If the building in which you operate your business or the building that houses your business’s tenant space exceeds 35,000 cubic feet, you will be required to hire a licensed design professional to supervise the work being done. Before a Building Permit will be issued, the licensed design professional will need to file a Controlled Construction Affidavit with the Building Department of the City of Quincy Inspectional Services stating that he/she will supervise the renovations.
4c. After renovations have been completed at the property, you will need to file an Occupancy Permit application with the Building Department. You may be required to receive approval of the work that has been performed from any or all of the following city departments:

- Fire Department
- Wire Department
- Plumbing Department
- Department of Public Works - Engineering Division and/or Water & Sewer Division
- Traffic Engineer
- Health Department

4d. After final approval from a building inspector and the Inspectional Services Director is given, the Occupancy Permit will be issued for the property.

Note: If the building in which you operate your business or the building that houses your business’ tenant space exceeds 35,000 cubic feet, you will need to present a Final Affidavit from both the licensed design professional who supervised the work and the licensed contractor who performed the renovations in order to receive the Occupancy Permit. The Final Affidavit forms are filed through the Building Department.

**BUSINESS CERTIFICATE**

5. You must file with the Quincy City Clerk for a Business Certificate (d/b/a).

5a. After filling out the application, have it notarized at the City Clerk’s office. Submit the completed form with a check or money order for the filing fee of $25 to the Quincy City Clerk.

**TAXES**

6. Visit the City of Quincy Assessor’s Office to file a Form of List. A Form of List is used to document the property owned by your business, so that it may be assessed and taxed by the city.
If you intend to operate a business in the City of Quincy, you must file tax forms with the Massachusetts Department of Revenue (DOR). Most sole proprietors should file a Schedule C form with their income taxes. If you plan to sell tangible goods, you must file a Form TA-1 to pay Massachusetts state sales tax.

DETAILED STEPS

BUSINESS PLAN

1. Draft a business plan. If you are not a certified Food Safety Manager or will not be prior to opening your business, then you must have one full-time employee who is certified as a Food Safety Manager. This guide contains instructions for sole proprietors only. Additional steps are required if you plan to hire other individuals. For more information, visit the Massachusetts Department of Business and Technology website.

   http://www.mass.gov/portal/index.jsp?pageID=agcc&agid=ded&agca=businesstable&agcc=businessplan&s=0&=

LOCATION

2. Select a location. A catering business must operate in a restaurant or other licensed commercial kitchen. A catering business cannot be operated from a residential kitchen.

   Note: Catering businesses also have the opportunity to rent commercial kitchens, which may be less costly. You still need to follow all of the licensing and permitting requirements. Some social clubs rent their commercial kitchens for this purpose.

2a. If you are changing use of the property you must have a detailed site plan prepared professionally. If you plan to make repairs or do renovations, the floor plan should show the existing and proposed conditions of the property. The site plan must show all planned furniture, doors, windows, equipment, plumbing and electrical outlets/equipment, sinks, food preparation area, wall, floor and ceiling coverings, storage areas, and dumpster locations. Your name, home address, shop location address, and day and night telephone numbers must all be included with your site plan.

   Note: You should NOT purchase a property for business use or sign a lease until you have verified the following:
   • Your business will be located in an appropriate zone. Request a zoning review from the Building Department of the City of Quincy Inspectional Services. If you need a zoning variance or licensing from the city licensing commission, verify that you will not be facing any community opposition. Try to set up a community meeting through the ward councilor.
   • Your plans are in compliance with Historic Commission requirements, if applicable. The Historic Commission exercises control over facades and signs in historic districts.

LICENSING AND FOOD SAFETY CERTIFICATION

3. Obtain all necessary licenses and certifications

3a. A Common Victualer license is required from the City of Quincy License Commission for any business such as catering that serves or sells prepared foods.
DETAILED STEPS

Visit the City of Quincy License Commission to file an application for a Common Victualer license. The license application is also available online:

3b. The application requires you receive approval from several other city departments:

- Obtain sign-off from the City of Quincy Inspectional Services Department.

- Visit the City of Quincy Assessor’s Office to clear the property of unpaid taxes. Obtain Assessor’s printout to be attached to the application.

- Obtain inspection from the City of Quincy Fire Department.

Note: Operating a catering business may require you to obtain an Ansul Systems Permit, if your cooking equipment produces smoke, and a Candle Permit, if you plan to use candles at any of the functions you will cater. You must file for a separate candle permit for each function. These are obtained from the City of Quincy Fire Department. Be sure to call or visit the Fire Department to ensure you are in full compliance with the law.

3c. In order to start a catering business in Quincy, you will need to work closely with the City of Quincy Health Department. To receive the Health Department’s sign-off for the Common Victualer license application, first visit the Health Department. You will be told the exact steps you need to take to obtain the Health Department’s approval and open your business. Request a copy of the Quincy Health Department Plan Review Requirements for Food Establishment. This document will help guide you through the specific regulations of the Health Department.
DETAILED STEPS

3d. In order to receive approval from the Health Department, you will most likely be asked to present a professionally prepared site plan as described in Step 2. You should request that an inspector visit the location of your business to receive recommendations on meeting regulations and successfully preparing an adequate site plan.

3e. Once a Health Department inspector has visited your place of business and you are comfortable with the plan for your business location, submit your site plan to the Health Department. Upon approval of the site plan, receive the Health Department’s sign-off on the Common Victualer license application.

3f. Return the completed application and four copies to the City of Quincy License Commission. A hearing will be scheduled to review your application. Upon approval, you will need to pay the $100 application fee. You will then be issued a Common Victualer license, which must be posted publicly in your place of business.

3g. If you do not plan to hire an employee who is a certified Food Safety Manager, then you must be a certified Food Safety Manager to operate a catering business. Certification is obtained through ServSafe courses offered throughout the area. Call the City of Quincy Health Department at 617-376-1270 to request a listing of courses being offered.

ZONING AND PERMITTING

4. Visit the Building Department of the City of Quincy Inspectional Services to begin the process of obtaining a Building Permit and Occupancy Permit.

   Building Department
   Inspectional Services
   1585 Hancock Street, Suite 301
   Quincy, MA 02169
   617-376-1450

4a. Prepare a property-use proposal stating the property’s existing use and contain a brief description of the business you wish to open, anticipated hours of operation, number of employees, services provided and location. Submit the proposal to a building inspector who will run a zoning check to determine whether your location is properly zoned for your business. (Office hours: 7:00 am-10:00 am.)

4b. File a Building Permit Application with the Building Department of the City of Quincy Inspectional Services. If you plan to make renovations to the property, a licensed contractor must supervise any renovations being made. The permit application requires the contact information and license number of the licensed contractor.

   Note: If you are not making any renovations to the property, you must still file a Building Permit Application. The application will be used to declare a change of occupancy at the property. If you are not making renovations, submit the Building Permit Application and skip to Step 4c.
Submit your floor plan (as prepared in Step 3) and the completed Building Permit Application to the Building Department. A building inspector will review your Building Permit Application. If approved, your application will be returned with further instructions from the inspector. You may be required to receive approval for the renovations from any or all of the following city departments:

- Fire Department
- Wire Department
- Plumbing Department
- Department of Public Works - Engineering Division and/or Water & Sewer Division
- Traffic Engineer
- Health Department

*Note:* If the building in which you operate your business or the building that houses your business’s tenant space exceeds 35,000 cubic feet, you will be required to hire a licensed design professional to supervise the work being done. Before a Building Permit will be issued, the licensed design professional will need to file a Controlled Construction Affidavit with the Building Department of the City of Quincy Inspectional Services stating that he/she will supervise the renovations.

4c. After renovations have been completed at the property, you will need to file an Occupancy Permit application with the Building Department. You may be required to receive approval of the work that has been performed from any or all of the following city departments:

- Fire Department
- Wire Department
- Plumbing Department
- Department of Public Works - Engineering Division and/or Water & Sewer Division
- Traffic Engineer
- Health Department

4d. After final approval from a building inspector and the Inspectional Services Director is given, the Occupancy Permit will be issued for the property.

*Note:* If the building in which you operate your business or the building that houses your business’ tenant space exceeds 35,000 cubic feet, you will need to present a Final Affidavit from both the licensed design professional who supervised the work and the licensed contractor who performed the renovations in order to receive the Occupancy Permit. The Final Affidavit forms are filed through the Building Department.

**BUSINESS CERTIFICATE**

5. You must file with the *Quincy City Clerk* for a Business Certificate (d/b/a).

[Address and contact information for City Clerk]
5a. After filling out the application, have it notarized at the City Clerk’s office. Submit the completed form with a check or money order for the filing fee of $25 to the Quincy City Clerk.

In order to open your business to the public, you will need a final inspection from the City of Quincy Health Department. In addition to inspecting your business location, an inspector will need to ensure that your vehicle and containers for your catering business meet the Health Department regulations

9a. After the City of Quincy Health Department has completed its inspection, you will be asked to complete an Application for Permit to Operate a Food Establishment. Submit the completed application form with the appropriate fee to the City of Quincy Health Department. You will then receive permission to start your catering service and a Permit to Operate a Food Establishment. The permit must be displayed publicly in your place of business.

**LICENSING**

2. If you plan to do residential contracting, you must register with the Massachusetts Home Improvement Contractor Program.

   ![Image](http://www.state.ma.us/homeimprovement)

2a. You can call the Home Improvement Contractor Program office at 617-727-8598 to request the Application for Registration as a Home Improvement Contractor, or it can be downloaded from the Home Improvement Contractor Program website.

   ![Image](http://www.state.ma.us/bbrs/hicapplication.pdf)

The fee for registration is structured in two parts:

- You must pay a $100 registration fee. This fee does not apply to licensed construction supervisors or registered individual motor vehicle repair shops in good standing.
- As a sole proprietor, you must submit a mandatory donation of $100 to the Guaranty Fund. No one is exempt from this contribution.

2b. Return the completed application along with two separate certified checks or money orders for the registration fee and Guaranty Fund contribution to the Director of Contractor Registration.

   ![Image](http://www.state.ma.us/bbrs/hicapplication.pdf)

The Home Improvement Contractor Program outlines who is required to register:

- Any persons, individuals or proprietorships who solicit, bid on, or perform residential contracting as a contractor or subcontractor on an existing one- to -four-unit owner-occupied residential building in Massachusetts.
The work covered by the Home Improvement Contractor Program includes the following types of residential contracting as state law dictates:

- Residential contracting is defined as “the reconstruction, alteration, renovation, repair, modernization, conversion, improvement, removal, demolition or construction of an addition to any pre-existing building containing at least one but not more than four dwelling units, which building thereof is used or designed to be used as a residence or dwelling unit, or to structures which are adjacent to such residence or building.”

The Home Improvement Contractor Program exempts the following from the requirement to register:

- Workers who work for a contractor or subcontractor for a wage
- All licensed professionals or tradesmen who take an exam as a condition of their licensure when they are working within the scope of their license, such as architects, electricians, plumbers but NOT construction supervisors licensed by the Board of Building Regulations and Standards
- The Commonwealth or its subdivisions
- Schools offering vocational education courses or training in home construction or improvement
- Owners doing their own renovations
- Persons who perform any bona-fide single job costing $500 or under
- Part time contractors or subcontractors whose gross revenue in the previous 12 months was less than $5,000
- Persons enrolled as full time students for last and next academic term and 2/3 of whose employees are so enrolled and whose gross revenue is anticipated to be or has been under $5,000
- Persons who install central heating, A/C systems, energy conservation devices, provide conservation services on behalf of a public utility, landscaping, interior painting, paper hanging, finished floor covering, tile, fencing, free standing masonry walls, above-ground swimming pools, shutters, awnings, patios, and driveways

Thus, if you plan to do residential contracting that includes but is not limited to carpentry, roofing, siding, and/or window work, then you must register as a Home Improvement Contractor. For more information, refer to the Home Improvement Contractor Program website.

**Note:** Home Improvement Contractor Registration does not permit you to act as a licensed tradesman such as a plumber or electrician. As stated, if you are already a licensed tradesman, you are exempt from the Home Improvement Contractor Program. If you intend to become a licensed plumber or electrician, refer to the Massachusetts Division of Professional Licensure.

LOCATION

3 Choose a location for your business and draft a detailed floor plan. If you plan to make repairs or do renovations, the floor plan should show what the property will look like when the work has been completed. The floor plan need not be prepared professionally, but must show all planned furniture, doors, windows, equipment, plumbing and electrical outlets/equipment. Your name, home address, business location address, and day and night telephone numbers must all be included with your floor plan.

Note: You should NOT purchase a property for business use or sign a lease until you have verified the following:

• Your business will be located in an appropriate zone. Request a zoning review from the Building Department of the City of Quincy Inspectional Services. If you need a zoning variance or licensing from the city licensing commission, verify that you will not be facing any community opposition. Try to set up a community meeting through the ward councilor.
• Your plans are in compliance with Historic Commission requirements, if applicable. The Historic Commission exercises control over facades and signs in historic districts.

ZONING AND PERMITTING

4 Visit the Building Department of the City of Quincy Inspectional Services to begin the process of obtaining a Building Permit and Occupancy Permit.

4a. Prepare a property-use proposal stating the property’s existing use and contain a brief description of the business you wish to open, anticipated hours of operation, number of employees, services provided and location. Submit the proposal to a building inspector who will run a zoning check to determine whether your location is properly zoned for your business. (Office hours: 7:00 am-10:00 am.)

4b. File a Building Permit Application with the Building Department of the City of Quincy Inspectional Services. If you plan to make renovations to the property, a licensed contractor must supervise any renovations being made. The permit application requires the contact information and license number of the licensed contractor.

Note: If you are not making any renovations to the property, you must still file a Building Permit Application. The application will be used to declare a change of occupancy at the property. If you are not making renovations, submit the Building Permit Application and skip to Step 4c.
Submit your floor plan (as prepared in Step 3) and the completed Building Permit Application to the Building Department. A building inspector will review your Building Permit Application. If approved, your application will be returned with further instructions from the inspector. You may be required to receive approval for the renovations from any or all of the following city departments:

- Fire Department
- Wire Department
- Plumbing Department
- Department of Public Works - Engineering Division and/or Water & Sewer Division
- Traffic Engineer
- Health Department

Note: If the building in which you operate your business or the building that houses your business’s tenant space exceeds 35,000 cubic feet, you will be required to hire a licensed design professional to supervise the work being done. Before a Building Permit will be issued, the licensed design professional will need to file a Controlled Construction Affidavit with the Building Department of the City of Quincy Inspectional Services stating that he/she will supervise the renovations.

4c. After renovations have been completed at the property, you will need to file an Occupancy Permit application with the Building Department. You may be required to receive approval of the work that has been performed from any or all of the following city departments:

- Fire Department
- Wire Department
- Plumbing Department
- Department of Public Works - Engineering Division and/or Water & Sewer Division
- Traffic Engineer
- Health Department

4d. After final approval from a building inspector and the Inspectional Services Director is given, the Occupancy Permit will be issued for the property.

Note: If the building in which you operate your business or the building that houses your business’ tenant space exceeds 35,000 cubic feet, you will need to present a Final Affidavit from both the licensed design professional who supervised the work and the licensed contractor who performed the renovations in order to receive the Occupancy Permit. The Final Affidavit forms are filed through the Building Department.

LICENSING

2 Obtain all the licenses necessary to open a laundromat.

2a. In order to operate a laundromat in Quincy, you will need to connect your facility directly to the city’s sewer system. An existing building in Quincy will already have this capacity. However, you must work with the Building & Plumbing Divisions of the City of Quincy Inspectional Services Department during Step 4 to ensure the sewer connection is done properly. You may be advised to take further steps with the City of Quincy Department of Public Works.

2b. You also must contact the Massachusetts Department of Environmental Protection (DEP) Northeast Regional Office before connecting to the city’s sewer system.

The DEP will determine if further permitting is necessary for the sewer connection based on the type of discharge and the city’s wastewater treatment system. A standard laundromat though, does not typically require additional permitting. Call the Massachusetts DEP to ensure you are in full compliance with the law.

2c. Additional licenses are required from the City of Quincy License Commission for
- use of automatic amusement machines such as arcade games
- entertainment such as television, juke box, or radio.

Be sure to visit the City of Quincy License Commission with a full list of the equipment and products you wish to use or sell in your establishment.

7 If you intend to operate a business in the City of Quincy, you must file tax forms with the Massachusetts Department of Revenue (DOR). Most sole proprietors should file a Schedule C form with their income taxes. If you plan to sell tangible goods, you must file a Form TA-1 to pay Massachusetts state sales tax.

7a. Call the Massachusetts DOR at 617-887-MDOR(6367) or toll-free in Massachusetts at 1-800-392-6089 to request that the forms be mailed. The Mass DOR website includes an Online Forms Index. You can download the forms and browse the instructions for filing them.
DETAILED STEPS

7b. When you have completed the forms, either mail the printed forms or file online as indicated. If you file Form TA-1, you will receive a Massachusetts Sales Tax Registration Number.

7c. You should call the Department of Revenue’s Customer Service Bureau at 617-887-6367 or toll-free in Massachusetts at 1-800-392-6089 to ensure you are in full compliance with the law.

If you intend to operate a business in the City of Quincy, you must file all necessary tax forms with the Internal Revenue Service (IRS). Once you file the necessary forms, the IRS will give you a federal tax identification number. As a sole proprietor, your tax identification can be your social security number. The IRS will provide further instructions on compliance with federal regulations.

LICENSING

2. The Massachusetts Registry of Motor Vehicles handles all livery licensing issues. You will need a federal tax identification number (see Step 8 below) before you can register your vehicles.
   - Acquire livery plates for each vehicle
   - If the vehicle has a capacity of nine passengers or more, file an application for authority to transport passengers for hire from the Transportation Division, Massachusetts Department of Telecommunications and Energy ($100 fee)

To operate a livery vehicle at Boston’s Logan Airport, take the following steps:
   - Obtain a letter from a city official (on official letterhead) stating that the city has no objections to your operation and has no special requirements on livery service
   - Be insured for at least $250,000 for bodily injury per person, $500,000 bodily injury per accident, and $100,000 in property damage
   - Acquire a Certificate of Insurance with
     - a broker’s stamp
     - an authorized signature
     - the name of the certificate holder
   - Submit this certificate to Massport’s Ground Transportation Division.

If you will be regularly transporting passengers across state lines,
   - Receive authorization from the Motor Carrier Board of the Federal Highway Administration.

BUSINESS PLAN

1 Draft a business plan. This guide contains instructions for sole proprietors only. Additional steps are required if you plan to hire other individuals. For more information, visit the Massachusetts Department of Business and Technology website.

http://www.mass.gov/portal/index.jsp?pageID=agcc&agid=ded&agca=businessassistance&agcc=businessplan&s=0&=

Note: Operating a livery service is different from operating a taxi. Taxi ownership in Quincy is handled through the City of Quincy Police Department. For more information, call or visit the Police Department.

LICENSING

2 The Massachusetts Registry of Motor Vehicles handles all livery licensing issues. The Registry of Motor Vehicles requires that all livery drivers in Massachusetts be licensed to drive the particular vehicle that they operate. The vehicle must be a legal one in which to transport passengers. Individual businesses and employers, as well as cities and towns outside of Boston, may have additional requirements for drivers.

Upon receiving your federal tax ID number (see Step 8), you may register your livery vehicles with the Registry of Motor Vehicles.

- You must acquire livery plates for each vehicle that you intend to use to carry passengers.
- You will pay a minimum of $80 dollars for each vehicle. If a vehicle has seven or fewer passenger seats, the additional fee per seat is $6. If the vehicle has more that seven seats, it will cost you $8 per seat in addition to the $80 minimum fee. For up-to-date rate information on passenger vehicle plates, see the Registry of Motor Vehicles website:

http://www.state.ma.us/rmv/fees/index.htm#multipass

2a. Livery Capacity Rules. A designated livery vehicle is permitted to have a capacity no greater than 15 passengers. There are different rules pertaining to vehicles that are legally considered buses. To check on the status of your vehicle, call the Registry of Motor Vehicles at 617-351-4500.

- If a vehicle has a capacity of nine passengers or more, then you must file an application for authority to transport passengers for hire from the Transportation Division, Massachusetts Department of Telecommunications and Energy. A printable copy of this application form can be found at the Transportation Division website.

http://www.state.ma.us/dpu/transportation/propasap.pdf
2b. To operate a livery vehicle at Logan Airport, **Massport** requires that you obtain a letter from a City official (on official letterhead) stating that the city has no objections to your operation and has no special requirements on livery service.

- To obtain permission to operate on Massport premises, contact the **Massport Ground Transportation Unit (GTU)** at 617-561-1775 for a Massport Ground Transportation operating agreement. The agreement calls for proof of insurance, operating authority, a list of fleet vehicles, and “other pertinent information.” The application fee is $75. Massport requires livery companies to be insured for
  - at least $250,000 for bodily injury per person
  - at least $500,000 bodily injury per accident
  - at least $100,000 in property damage.
- Your Certificate of Insurance must show
  - a broker’s stamp
  - an authorized signature
  - the name of the certificate holder.

- If you are required to carry Worker’s Compensation coverage for employees, then you must do so prior to operating at Massport. However, sole proprietors are not usually required to carry Worker’s Compensation and must sign a form to notify Massport of this status. The form comes in the Ground Transportation Operating Agreement.

  “Upon signature and approval of your agreement, you can commence operations at Logan, using curb areas as specified by the GTU. Your company would then be billed monthly $1.50 per trip in accordance with the agreement. Massport only regulates shuttle carriers as to their operation at Logan.”

See the Massport website for more information.

Massport will issue an approval permit, which you must affix in/on your vehicle so that it may easily be seen by police and Massport officials. Massport further requires that each car have working air conditioning during the summer, a clean luggage compartment, and have any seatbelts installed during the car’s manufacture in working order. Be sure to request a copy of 740 CMR 23.00 – *Rules and Regulations for the Operation of Commercial Ground Transportation Services at Boston-Logan International Airport.*

2c. If you will be regularly transporting passengers across state lines, you will need authorization from the **Motor Carrier Board** of the **Federal Highway Administration**. The regional office is located in Cambridge.
LOCATION

3 Choose a location for your business and draft a detailed floor plan. If you plan to make repairs or do renovations, the floor plan should show what the property will look like when the work has been completed. The floor plan need not be prepared professionally, but must show all planned furniture, doors, windows, equipment, plumbing, and electrical outlets/equipment. Your name, home address, shop location address, and day and night telephone numbers must all be included with your floor plan.

*Note:* You should NOT purchase a property for business use or sign a lease until you have verified the following:
- Your business will be located in an appropriate zone. Request a zoning review from the Building Department of the City of Quincy Inspectional Services. If you need a zoning variance or licensing from the city licensing commission, verify that you will not be facing any community opposition. Try to set up a community meeting through the ward councilor.
- Your plans are in compliance with Historic Commission requirements, if applicable. The Historic Commission exercises control over facades and signs in historic districts.

ZONING AND PERMITTING

4 Visit the Building Department of the City of Quincy Inspectional Services to begin the process of obtaining a Building Permit and Occupancy Permit.

4a. Prepare a property-use proposal stating the property’s existing use and contain a brief description of the business you wish to open, anticipated hours of operation, number of employees, services provided and location. Submit the proposal to a building inspector who will run a zoning check to determine whether your location is properly zoned for your business. (Office hours: 7:00 am-10:00 am.)

4b. File a Building Permit Application with the Building Department of the City of Quincy Inspectional Services. If you plan to make renovations to the property, a licensed contractor must supervise any renovations being made. The permit application requires the contact information and license number of the licensed contractor.

*Note:* If you are not making any renovations to the property, you must still file a Building Permit Application. The application will be used to declare a change of occupancy at the property. If you are not making renovations, submit the Building Permit Application and skip to Step 4c.
Submit your floor plan (as prepared in Step 3) and the completed Building Permit Application to the Building Department. A building inspector will review your Building Permit Application. If approved, your application will be returned with further instructions from the inspector. You may be required to receive approval for the renovations from any or all of the following city departments:

- Fire Department
- Wire Department
- Plumbing Department
- Department of Public Works - Engineering Division and/or Water & Sewer Division
- Traffic Engineer
- Health Department

*Note:* If the building in which you operate your business or the building that houses your business’s tenant space exceeds 35,000 cubic feet, you will be required to hire a licensed design professional to supervise the work being done. Before a Building Permit will be issued, the licensed design professional will need to file a Controlled Construction Affidavit with the Building Department of the City of Quincy Inspectional Services stating that he/she will supervise the renovations.

4c. After renovations have been completed at the property, you will need to file an Occupancy Permit application with the Building Department. You may be required to receive approval of the work that has been performed from any or all of the following city departments:

- Fire Department
- Wire Department
- Plumbing Department
- Department of Public Works - Engineering Division and/or Water & Sewer Division
- Traffic Engineer
- Health Department

4d. After final approval from a building inspector and the Inspectional Services Director is given, the Occupancy Permit will be issued for the property.

*Note:* If the building in which you operate your business or the building that houses your business’ tenant space exceeds 35,000 cubic feet, you will need to present a Final Affidavit from both the licensed design professional who supervised the work and the licensed contractor who performed the renovations in order to receive the Occupancy Permit. The Final Affidavit forms are filed through the Building Department.

LOCATION

2 Select a location for your business.

2a. If you are changing use of the property you must have a detailed site plan prepared professionally. If you plan to make repairs or do renovations, the floor plan should show the existing and proposed conditions of the property. The site plan must show all planned furniture, doors, windows, equipment, plumbing and electrical outlets/equipment, sinks, food preparation area, wall, floor and ceiling coverings, storage areas, and dumpster locations. Your name, home address, shop location address, and day and night telephone numbers must all be included with your site plan.

Note: You should NOT purchase a property for business use or sign a lease until you have verified the following:
• Your business will be located in an appropriate zone. Request a zoning review from the Building Department of the City of Quincy Inspectional Services. If you need a zoning variance or licensing from the city licensing commission, verify that you will not be facing any community opposition. 3c. In order to start a grocery store in Quincy, you will need to work closely with the Health Department. To receive the City of Quincy Health Department’s sign-off for the Common Victualer license application, first visit the Health Department. You will be told the exact steps you need to take to obtain the Health Department’s approval and open your business. Request a copy of the Quincy Health Department Plan Review Requirements for Food Establishment. This document will help guide you through the specific regulations of the Health Department.
Note: In order to receive approval from the Health Department, you will most likely be asked to present a professionally prepared site plan as described in Step 2. You should request that an inspector visit the location of your business to receive recommendations on meeting regulations and successfully preparing an adequate site plan.

Once a Health Department inspector has visited your place of business and you are comfortable with the plan for your business location, submit your site plan to the Health Department. Upon approval of the site plan, receive the Health Department’s sign-off on the Common Victualer license application.

3d. Return the completed application and four copies to the City of Quincy License Commission. A hearing will be scheduled to review your application. Upon approval, you will need to pay the $100 application fee. You will then be issued a Common Victualer license, which must be posted publicly in your place of business.

3e. Additional licenses are required from the City of Quincy License Commission for the following:
   • use of automatic amusement machines such as arcade games
   • entertainment such as television, juke box, or radio

   Be sure to visit the City of Quincy License Commission with a full list of the equipment and products you wish to use or sell in your establishment. If you do not successfully acquire the necessary licenses, you could be subject to fines and removal of the equipment.

3f. If you plan on selling or serving prepared foods and you do not plan to hire an employee who is a certified Food Safety Manager, then you must be a certified Food Safety Manager. Certification is obtained through ServSafe courses offered throughout the area. Call the City of Quincy Health Department at 617-376-1270 to request a listing of courses being offered.

ZONING AND PERMITTING

4. Visit the Building Department of the City of Quincy Inspectional Services to begin the process of obtaining a Building Permit and Occupancy Permit.

4a. Prepare a property-use proposal stating the property’s existing use and contain a brief description of the business you wish to open, anticipated hours of operation, number of employees, services provided and location. Submit the proposal to a building inspector who will run a zoning check to determine whether your location is properly zoned for your business. (Office hours: 7:00 am-10:00 am.)
DETAILED STEPS

4b. File a Building Permit Application with the Building Department of the City of Quincy Inspectional Services. If you plan to make renovations to the property, a licensed contractor must supervise any renovations being made. The permit application requires the contact information and license number of the licensed contractor.

*Note:* If you are not making any renovations to the property, you must still file a Building Permit Application. The application will be used to declare a change of occupancy at the property. If you are not making renovations, submit the Building Permit Application and skip to Step 4c.

Submit your floor plan (as prepared in Step 3) and the completed Building Permit Application to the Building Department. A building inspector will review your Building Permit Application. If approved, your application will be returned with further instructions from the inspector. You may be required to receive approval for the renovations from any or all of the following city departments:
- Fire Department
- Wire Department
- Plumbing Department
- Department of Public Works - Engineering Division and/or Water & Sewer Division
- Traffic Engineer
- Health Department

*Note:* If the building in which you operate your business or the building that houses your business’s tenant space exceeds 35,000 cubic feet, you will be required to hire a licensed design professional to supervise the work being done. Before a Building Permit will be issued, the licensed design professional will need to file a Controlled Construction Affidavit with the Building Department of the City of Quincy Inspectional Services stating that he/she will supervise the renovations.

4c. After renovations have been completed at the property, you will need to file an Occupancy Permit application with the Building Department. You may be required to receive approval of the work that has been performed from any or all of the following city departments:
- Fire Department
- Wire Department
- Plumbing Department
- Department of Public Works - Engineering Division and/or Water & Sewer Division
- Traffic Engineer
- Health Department

4d. After final approval from a building inspector and the Inspectional Services Director is given, the Occupancy Permit will be issued for the property.

*Note:* If the building in which you operate your business or the building that houses your business’ tenant space exceeds 35,000 cubic feet, you will need to present a Final Affidavit from both the licensed design professional who supervised the work and the licensed contractor who performed the renovations in order to receive the Occupancy Permit. The Final Affidavit forms are filed through the Building Department.

BUSINESS PLAN

1 Draft a business plan. If you are not a certified Food Safety Manager or will not be prior to opening your business, then you must have one full-time employee who is certified as a Food Safety Manager. This guide contains instructions for sole proprietors only. Additional steps are required if you plan to hire other individuals. For more information, visit the Massachusetts Department of Business and Technology website.

http://www.mass.gov/portal/index.jsp?pageID=agcc&agid=ded&agca=businesassistance&agcc=businessplan&s=0&=

LOCATION

2 Select a location for your business.
   2a. If you are changing use of the property you must have a detailed site plan prepared professionally. If you plan to make repairs or do renovations, the floor plan should show the existing and proposed conditions of the property. The site plan must show all planned furniture, doors, windows, equipment, plumbing and electrical outlets/equipment, sinks, food preparation area, wall, floor and ceiling coverings, storage areas, and dumpster locations. Your name, home address, shop location address, and day and night telephone numbers must all be included with your site plan.

   Note: You should NOT purchase a property for business use or sign a lease until you have verified the following:
   • Your business will be located in an appropriate zone. Request a zoning review from the Building Department of the City of Quincy Inspectional Services. If you need a zoning variance or licensing from the city licensing commission, verify that you will not be facing any community opposition. Try to set up a community meeting through the ward counselor.
   • Your plans are in compliance with Historic Commission requirements, if applicable. The Historic Commission exercises control over facades and signs in historic districts.

LICENSING AND FOOD SAFETY CERTIFICATION

3 Obtain all necessary licenses and certifications
   3a. A Common Victualer license is required from the City of Quincy License Commission for any business that serves or sells prepared foods, such as a small restaurant.

License Commission
City Hall
1305 Hancock Street
Quincy, MA 02169
617-376-1134
DETAILED STEPS

Visit the City of Quincy License Commission to file an application for a Common Victualer license. The license application is also available online:

3b. The application requires you receive approval from several other city departments:

► Obtain sign-off from the City of Quincy Inspectional Services Department.

Inspectional Services Department
1585 Hancock Street, Suite 301
Quincy, MA 02169
617-376-1450

► Visit the City of Quincy Assessor’s Office to clear the property of unpaid taxes. Obtain Assessor’s printout to be attached to the application.

Assessor’s Office
City Hall
1305 Hancock Street
Quincy, MA 02169
617-376-1174

► Obtain inspection from the City of Quincy Fire Department.

Fire Department
40 Quincy Avenue
Quincy, MA 02169
617-376-1015

Note: Operating a small restaurant may require you to obtain an Ansul Systems Permit, if your cooking equipment produces smoke, and a Candle Permit, if you plan to use candles at any of the functions you will cater. You must file for a separate candle permit for each function. These are obtained from the City of Quincy Fire Department. Be sure to call or visit the Fire Department to ensure you are in full compliance with the law.

► The license application also requires you receive approval from the City of Quincy Health Department.

Health Department
1585 Hancock Street
Quincy, MA 02169
617-376-1270
3c. In order to start a restaurant in Quincy, you will need to work closely with the Health Department. To receive the City of Quincy Health Department’s sign-off for the Common Victualer license application, first visit the Health Department. You will be told the exact steps you need to take to obtain the Health Department’s approval and open your business. Request a copy of the Quincy Health Department Plan Review Requirements for Food Establishment. This document will help guide you through the specific regulations of the Health Department.

Note: In order to receive approval from the Health Department, you will most likely be asked to present a professionally prepared site plan as described in Step 2. You should request that an inspector visit the location of your business to receive recommendations on meeting regulations and successfully preparing an adequate site plan.

Once a Health Department inspector has visited your place of business and you are comfortable with the plan for your business location, submit your site plan to the Health Department. Upon approval of the site plan, receive the Health Department’s sign-off on the Common Victualer license application.

3d. Return the completed application and four copies to the City of Quincy License Commission. A hearing will be scheduled to review your application. Upon approval, you will need to pay the $100 application fee. You will then be issued a Common Victualer license, which must be posted publicly in your place of business.

3e. Additional licenses are required from the City of Quincy License Commission for the following:

- use of automatic amusement machines such as arcade games
- entertainment such as television, juke box, or radio

Be sure to visit the City of Quincy License Commission with a full list of the equipment and products you wish to use or sell in your establishment. If you do not successfully acquire the necessary licenses, you could be subject to fines and removal of the equipment.

ZONING AND PERMISSING

4 Visit the Building Department of the City of Quincy Inspectional Services to begin the process of obtaining a Building Permit and Occupancy Permit.
4a. Prepare a property-use proposal stating the property’s existing use and contain a brief description of the business you wish to open, anticipated hours of operation, number of employees, services provided and location. Submit the proposal to a building inspector who will run a zoning check to determine whether your location is properly zoned for your business. (Office hours: 7:00 am-10:00 am.)

4b. File a Building Permit Application with the Building Department of the City of Quincy Inspectional Services. If you plan to make renovations to the property, a licensed contractor must supervise any renovations being made. The permit application requires the contact information and license number of the licensed contractor.

Note: If you are not making any renovations to the property, you must still file a Building Permit Application. The application will be used to declare a change of occupancy at the property. If you are not making renovations, submit the Building Permit Application and skip to Step 4c.

Submit your floor plan (as prepared in Step 3) and the completed Building Permit Application to the Building Department. A building inspector will review your Building Permit Application. If approved, your application will be returned with further instructions from the inspector. You may be required to receive approval for the renovations from any or all of the following city departments:

- Fire Department
- Wire Department
- Plumbing Department
- Department of Public Works - Engineering Division and/or Water & Sewer Division
- Traffic Engineer
- Health Department

Note: If the building in which you operate your business or the building that houses your business’s tenant space exceeds 35,000 cubic feet, you will be required to hire a licensed design professional to supervise the work being done. Before a Building Permit will be issued, the licensed design professional will need to file a Controlled Construction Affidavit with the Building Department of the City of Quincy Inspectional Services stating that he/she will supervise the renovations.

4c. After renovations have been completed at the property, you will need to file an Occupancy Permit application with the Building Department. You may be required to receive approval of the work that has been performed from any or all of the following city departments:

- Fire Department
- Wire Department
- Plumbing Department
- Department of Public Works - Engineering Division and/or Water & Sewer Division
- Traffic Engineer
- Health Department

4d. After final approval from a building inspector and the Inspectional Services Director is given, the Occupancy Permit will be issued for the property.
Note: If the building in which you operate your business or the building that houses your business’ tenant space exceeds 35,000 cubic feet, you will need to present a Final Affidavit from both the licensed design professional who supervised the work and the licensed contractor who performed the renovations in order to receive the Occupancy Permit. The Final Affidavit forms are filed through the Building Department.
